

You're a business owner – not an accountant. Yet many of the most important decisions you make for your family-owned business, start-up or nonprofit should be based on the numbers that are driving your organization forward – or holding it back.

Grassi's Accounting Services professionals provide these insights to you without the expense of a full-time executive or finance staff. From daily accounting support to fully outsourced CFO services, we keep your company in compliance and provide real-time business analytics and advice to help you make confident data-driven decisions.

Our CFO Advisory and Technology Consulting teams can also provide assessments and consulting services that bring permanent improvements to your accounting efficiencies and resource utilization.

Services include:

- General ledger accounting
- Account reconciliations
- Accounts payable/receivable
- Bookkeeping and bill paying
- Outsourced CFO
- Budgeting and cash flow forecasting, projections and monitoring
- Accounting software assessment, selection and implementation
- Month-end closing
- Financial statements preparation
- Fixed asset management
- Internal control analysis
- Management reporting and KPI analysis
- Audit support
- Tax planning, preparation and compliance (income, sales and payroll tax)
- Data analytics and dashboards
- API and process automation

These outsourced and advisory services are provided by our team of experienced CPAs, CFOs and accounting specialists and are customized to offer just the right amount of support to make your finance function thrive. Request your complimentary consultation today.
